'HALAAL PROSTITUTES' A WAITING SANHA'S CERTIFICATE!!!

Amsterdam's famous, or should we say infamous, red light district just got crazier! A new bar called "Hot Crescent" is offering its Muslim clients 'halal prostitutes

Jonathan Swick, the bar owner, consulted three moderate, modern Imams to identify halal requirements. As a result, the prostitutes do not indulge in alcohol or drugs and they pray according to Islamic tradition, five times a day. In return, clients must have sex in a way that does not breach Islamic tradition. According to several sources, Shi'a Islam allows Nikāḥ al-Mut'ah or 'marriage for pleasure', a contentious option that permits temporary, contractual marriage. The marriage's duration is decided before marrying and is automatically terminated upon completion of the agreed time period. Marriages may be renewed and financial payments may occur, typically with the husband paying the wife.

Hot Crescent's Halal prostitutes would complete medical tests every two months in what Swick hopes will give Muslims a healthy and guilt-free way to satisfy their needs!

HOT CRESCENT

From 'halaal' carrion to 'halaal' liquor to 'halaal' pork, and now 'halaal' prostitutes!!! This is the logical conclusion of the progression of the 'halaal' certificate industry of Iblees whose agents in South Africa are SANHA, MJC, NIHT, ICOSA and now a new contender and competitor, a Cape Town based outfit called Shura Assistance and Relief Trust. SANHA must gear itself for stiff competition in the carrion industry.

Shaitaan spins his web and lays his snare gradually. By degrees he enmeshes these vile scholars of dollars into his evil trap. Halaalization of Haraam is a sign of Qiyaamah predicted by Rasulullah (sallallahu alayhi wasallam). The time has yet to dawn when the 'Ameer' of the Muslims will fornicate in broad daylight on the Mimbar in the Jaami' Musjid of Damascus. Thus, 'halaal' prostitutes are no longer surprising.

Certificates will yet be issued for 'halaal' zina. The stage is being set by the SANHA dajjaal with its 'halaal' synthetic liquor. Zina is the logical consequence of liquor.

Consumption of all the haraam halaalized carrion chickens and carrion meat of SANHA has completely effaced every vestige of Imaani inhibition to haraam. Haraam now tastes delicious. In the wake of halaalization of haraam junk food and carrion, comes halaalization of haraam deeds. Indeed, the dark clouds of Athaab are overhanging the Ummah and the collision with Qiyaamah does not appear to be in the too distant future. May Allah Ta'ala have mercy on this fallen, disgraced and rebellious Ummah.
