MASSIVE COVID DEATH HYPE

DEATHS IN SOUTH AFRICA – DEATHS PER EVERY 100,000 OF THE POPULATION

- **ABORTION** 42
- **TB** 6
- **Diabetes** 5
- **Heart Disease** 5
- **HIV** 4
- **Influenza** 4
- **Murder** 4
- **Road** 3
- **COVID** 0.36

The COVID devil has failed to cause even one death per 100,000. In fact, not even 'half' a death. Furthermore, the 0.36 is also misleading. Many of those included in this miniscule number did not in reality die of covid. It is now a well-known fact, that numerous of those who did not die of covid are deceptively recorded as covid cases.

Abortion is at the top of the list with a massive disparity between it and the other causes of death, yet there is no lockdown and no destruction of the economy, and no pillage and plunder of the rights of the people.
