# **CIGARETTES – THE SMOKE OF SHAITAAN AND THE INMATES OF HELL-FIRE**

## ***CIGARETTES MORE DEADLY THAN BEFORE SAY THE EXPERTS***

### **9 Ways Tobacco Companies**

### **Make Cigarettes More Addictive,**

### **More Attractive to Kids and More Deadly**

#### **Bronchodilators**

*Added chemicals expand the lungs' airways, making it easier for tobacco smoke to pass into the lungs.*

#### **Increased Nicotine**

*Tobacco companies control the delivery and amount of nicotine to ensure addiction*

#### **Flavorings**

*Added flavors like liquorice and chocolate mask the harshness of smoke and make products more appealing to new users, especially kids.*

#### **Tobacco-specific Nitrosamines**

*American-style cigarettes are made with blended tobacco that has much higher levels of cancer-causing nitrosamines.*

#### **Ammonia Compounds**

*Adding ammonia compounds increases the speed with which nicotine hits the brain.*

#### **Ventilated Filters**

*Ventilation holes in the filters cause smokers to inhale more vigorously, drawing carcinogens more deeply into the lungs.*

#### **Menthol**

*Menthol cools and numbs the throat to reduce irritation and make smoke feel smoother.*

#### **Sugars and Acetaldehyde**

*Added sugars make tobacco smoke easier to inhale and form acetaldehyde, which enhances nicotine's addictive effects.*

#### **Levulinic Acid**

*Added organic acid salts reduce harshness of nicotine and make smoke smoother, less irritating.*
