## **SELF-DESTRUCTION IS HARAAM**

***“DO NOT CAST (YOURSELVES) INTO  
DESTRUCTION WITH YOUR OWN HANDS.”***

***(Baqarah, Aayat 195)***

The broader, all-embracing meaning of this Qur’aanic Aayat is that it is haraam to bring any type of ruin to oneself with one’s own unjustified actions.

It has transpired conclusively by the testimony of thousands of scientists, doctors and medical experts that vaccines and vaccination are extremely harmful and brings horrible injury, destruction of health and even death in their wake. There is no longer the slightest credibility for those who peddle the theories of the atheists pertaining to the current Ibleesi-hallunicated ‘pandemic’. It is therefore, haraam for Muslims to destroy themselves with the Potion of Iblees in the form of a cocktail of filth and poison.

Read in the ensuing pages the categorical claims and advice of the experts.

May Allah Ta’ala guide and protect Muslims from the deceptions of the nafs and the snares of Iblees and his agents, the ulama-e-soo’ who have sold their souls to the atheists for despicable worldly and nafsaani objectives.

## **Dr. Sucharit Bhakdi: A Speech to Move Mountains Aimed at Physicians, Lawyers and Anyone with a Soul**

By Dr. Sucharit Bhakdi Global Research,  
December 14, 2021

*This symposium has been dedicated to the sounding of a triple call: a call for humanity, a call for freedom, a call for justice.*

*The call for Humanity is addressed to physicians around the globe. They have played central roles in conjuring up and driving the COVID-19 narrative along its fatal path.*

Return to your pledged duties to serve humanity. Recall the Oath of Hippocrates and the 1954 Declaration of Geneva. Avoid doing harm.

Physicians who participate in the vaccination program: search for the truth in your souls. Are you acting out of conviction? Have you attempted to weigh out the evidence for and against the administration of the gene-based agents? Early in the vaccination campaign you may have believed that injecting gene-based COVID products served the best interests of your patients. This Symposium has however irrefutably documented that that stance is no longer viable. The potential of the so-called vaccines to trigger self-destruction is now revealed. Continuance of their application will be equatable with intended infliction of bodily harm. You, medicinal professionals of the world, can and must stop this immediately. Can you bear the thought that your next injection could wipe out the hopes and happiness of an

innocent child? Blood that you may have on your hands can still be washed off. But new blood will remain on you until the Day of Judgment.

**Dr. Sucharit Bhakdi Interview: COVID Vaccine Blood Clot Risk Was Known, Ignored & Buried**

Physicians, we call upon you to decline to participate in the harm of your patients. Resist the hijacking of medicine by politics, and take patient care and patient safety back into your own hands.

Our Call for Freedom is addressed to the governmental bodies and medicinal agencies, whose conflicts of interest abound. We charge them with usurping their powers in order to serve their own interests. They have inflicted untold suffering on the world populace – cynically, mercilessly, remorselessly. The first individuals we address here are the medical doctors: Anthony Fauci, Ursula van der Leyen, the Austrian and German ministers of health, the next President of Switzerland. Do you not fear that your names will go down in history alongside with the names of the greatest evil-doers of all times – and forever mar the standing and prestige of our once-honoured profession?

We challenge you to come forth and debate the matter with us in an open and honest fashion. This challenge extends to all medical institutions that continue to laud the merits of COVID-vaccination. Colleagues: we cannot both be right and it is our implicit duty to come together and seek the truth. Come, colleagues, convince the world of your honourable stance by accepting our challenge. We await you any time, any day, anywhere.

Our Call for Justice is addressed to the law courts of the world. Pleas for help are reaching your courtrooms from

around the globe. Return to your judicial responsibility to protect and stand by the populace that is being terrorized by a select few of the world. Recall your professional duties and maintain the ethics of your profession. Open your eyes, your ears and your minds to both of the opposing parties.

Ensure that the guilty are brought to justice.

And, finally, to our fellow members of the human family: we call upon you to stand up for your rights, and the rights of those you love – your freedom, your bodily autonomy, your right to live, speak, move and work freely, without medical coercion, intimidation, or fear of reprisal.

For once you give those rights away, they will not be given back. You will be sentencing your children and the generations to come to an existence in a world of darkness, to a life devoid of empathy, of love, of humanity. A life no longer worth living.

## **US panel recommends J&J shots be sidelined after clot deaths**

17 Dec 2021

**A panel of US experts has voted unanimously to recommend the Pfizer and Moderna Covid-19 vaccines over Johnson & Johnson's, which has been linked to deadly side effects.**

According to the US Centers for Disease Control and Prevention (CDC), a total of 57 J&J patients have developed a rare blood clot disorder.

Nine people are known so far to have died: seven women and two men.

A total of 16 million US residents have received the single-dose J&J vaccine.

On Thursday, the Advisory Committee on Immunization Practices (ACIP) recommended that the J&J vaccine be reserved for cases where patients are unable or unwilling to receive the more widely available Pfizer and Moderna jabs. The CDC must still decide whether to accept the panel's recommendation.

The blood-clotting side effect remains rare, with federal health officials estimating that it has been reported at a rate of 3.8 per million doses given.

Of the 57 confirmed cases, 36 were admitted to intensive care units. The dead ranged in ages from 28 to 62, with obesity the primary underlying medical condition.

All the cases so far have taken place within a month of the jab, the vast majority after nine days.

"I don't feel comfortable... not having the ACIP make a clear statement that reflects the recognition that we have of the concerns about these rare but oftentimes fatal side effects," ACIP member Dr Beth Bell said on Thursday.

A number of panellists warned against removing J&J as an option entirely, particularly at a time when US public health officials are trying to vaccinate the country's remaining unvaccinated residents.

"It's really important, though, that we not completely eliminate this vaccine," said Dr Jason Goldman, an assistant professor of clinical biomedical science at Florida Atlantic University.

The use of the J&J vaccine was temporarily halted in April due to concerns over blood clots.

The CDC has noted that the use of the vaccine prevented thousands of Covid-19-related hospitalisations, compared to a relatively small number of people who experienced the side effects.

The latest CDC statistics show that over 76% of US residents above the age of five have received at least one dose of the Covid-19 vaccines.

## **Before your Child is Injected, Read Dr. Robert Malone's statement on Child COVID Vaccinations**

By Dr. Robert Malone Global Research, December 15, 2021

*Before your child is injected, read Dr. Robert Malone's statement on child COVID vaccinations.*

*Before you vaccinate your child, which is irreversible and potentially permanently damaging, find out why 15,000 physicians and medical scientists around the world signed a declaration publicly declaring that healthy children should NOT be vaccinated for COVID-19.*

*On behalf of these MDs and PhDs, Dr. Robert Malone, who has devoted his career to vaccine development, provides parents a clear statement outlining the scientific facts behind this decision.*

## ***Full Text of Malone Statement***

My name is Robert Malone, and I am speaking to you as a parent, grandparent, physician and scientist. I don't usually read from a prepared speech, but this is so important that I wanted to make sure that I get every single word and scientific fact correct.

I stand by this statement with a career dedicated to vaccine research and development. I'm vaccinated for COVID and I'm generally pro-vaccination. I have devoted my entire career to developing safe and effective ways to prevent and treat infectious diseases.

After this, I will be posting the text of this statement so you can share it with your friends and family.

Before you inject your child – a decision that is irreversible – I wanted to let you know the scientific facts about this genetic vaccine, **which is based on the mRNA vaccine technology I created:**

There are three issues parents need to understand:

The first is that a viral gene will be injected into your children's cells. This gene forces your child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs, including

- § Their brain and nervous system
- § Their heart and blood vessels, including blood clots
- § Their reproductive system, and
- § **This vaccine can trigger fundamental changes to their immune system**

The most alarming point about this is that once these damages have occurred, **they are irreparable**

- § You can't fix the lesions within their brain
- § You can't repair heart tissue scarring
- § You can't repair a genetically reset immune system, and
- § This vaccine can cause reproductive damage that could affect future generations of your family

The second thing you need to know about is the fact that **this novel technology has not been adequately tested.**

- § We need at least 5 years of testing/research before we can really understand the risks
- § Harms and risks from new medicines often become revealed many years later

Ask yourself if you want your own child to be part of the most radical medical experiment in human history

One final point: the reason they're giving you to vaccinate your child is a lie.

- § Your children represent no danger to their parents or grandparents
- § It's actually the opposite. Their immunity, after getting COVID, is critical to save your family if not the world from this disease

In summary: there is no benefit for your children or your family to be vaccinating your children against the small risks of the virus, given the known health risks of the vaccine that as a parent, you and your children may have to live with for the rest of their lives.

The risk/benefit analysis isn't even close.

As a parent and grandparent, my recommendation to you is to resist and fight to protect your children.
