

THE BASELESS, HARAAM EID 'FATWA' OF THE AUSTRALIAN JUHHAAL

The *Juhhaal* Australian National Imams Council, floundering in compound *jahl* issued the following baatil fatwa on 22 June 2017:

Saturday the 24th of June, 2017 will be the last day of Ramadan for the year 1438AH and Sunday, the 25th of June, 2017 will be the first day of Shawaal and hence the first day of Eid Al-Fitr.

Be it known that this stupid 'fatwa' is in diametric conflict with the Shariah. The ONE and ONLY Shar'i method of determining the end of Ramadhaan, the commencement of Shawwaal as well as of all Islamic months is by PHYSICAL moon-sighting. The stupid astronomical calculations on which the *juhhaal* imam's council relies have no validity in Islam.

If the *hilaal* is not sighted, nor reliable news received of the sighting of another place, it will not be Eid. These modernist 'imams' and 'grand muftis' are western bootlickers. They are all signs of Qiyaamah. They promote the cause of Iblees.

28 Ramadhaan 1438 (23 June 2017)
