FOR THE INTELLIGENT AND THE HONEST

“Let’s look at figures for ordinary flu for the whole planet. A study published in the journal, Pharmacy and Therapeutics, states:

“Influenza is a highly contagious respiratory illness that is responsible for significant morbidity and mortality. Approximately 9% of the world’s population is affected annually, with up to 1 billion infections, 3 to 5 million severe cases, and 300,000 to 500,000 deaths each year.”

A BILLION cases EVERY YEAR. Is this called a pandemic? Is the whole world locked down every year? No.”

By Jon Rapport, March 26, 2020

UK GOVERNMENT DOWNGRADES COVID-19

“As of 19 March 2020, COVID-19 is no longer considered to be a high consequence infectious disease (HCID) in the UK.”

(The UK Government’s announcement on its website on March 23)
