MASSIVE COVID DEATH HYPE

DEATHS IN SOUTH AFRICA – DEATHS PER EVERY 100,000 OF THE POPULATION

- ABORTION	42
- TB	6
- Diabetes	5
- Heart Disease	5
- HIV	4
- Influenza	4
- Murder	4
- Road	3
- COVID	0.36

The COVID devil has failed to cause even one death per 100,000. In fact, not even 'half' a death. Furthermore, the 0.36 is also misleading. Many of those included in this miniscule number did not in reality die of covid. It is now a well-known fact, that numerous of those who did not die of covid are deceptively recorded as covid cases.

Abortion is at the top of the list with a massive disparity between it and the other causes of death, yet there is no lockdown and no destruction of the economy, and no pillage and plunder
