

**AFOSA IS A SHIAH ENTITY**

***BEWARE OF SHIAH CONSPIRACIES!***

**QUESTION**

***I have read a statement criticizing Saudi Arabia, issued by a body called The Ahlul Bait Foundation of South Africa. I have the following questions:***

***a. Who is AFOSA?***

***b. Should we accept the advice of AFOSA to protest to the Saudi authorities?***

***c. Usually The Majlis vociferously criticizes Saudi Arabia on a range of issues. Why is The Majlis silent on the issue of the Saudi beheadings?***

## **ANSWER**

a. This AFOSA thing is a Shiah entity. Shiahs are not Muslims regardless of their claims to being Muslim. They subscribe to horrendous beliefs of kufr. We have discussed their vile beliefs of kufr in several books.

b. Never should you act according to advices and requests of Shiahs who are the enemies of the Ahl-e-Bait. The title which they have appropriated is a misnomer. Whilst Shiahs dub themselves the followers and supporters of the *Ahl-e-Bait*, they are the worst enemies of Ahl-e-Bait. The *Ahl-e-Bait* refers to the Family of Rasulullah (Sallallahu alayhi wasallam) – the Household of Nabi (Sallallahu alayhi wasallam) which includes the Holy Wives whom the Qur'aan designates as "*Ummahaatul Mu'mineen*" (*The Mothers of the Believers*)."

Shiahs accuse and slander Hadhrat Aishah Siddiqah (Radhiyallahu anha) with zina (adultery). They have the most horrible epithets for Hadhrat Aishah Siddiqah (Radhiyallahu anha). This subject shall, Insha-Allah, be pursued in another discussion. Here it is essential to note that Shiahs are not Muslims. In addition to not being Muslims, they are calculated enemies of Islam, hence it is Waajib to stay far from them.

c. Everyone is aware of our stance regarding Saudi Arabia. We have published numerous articles and statements in condemnation of the Saudi regime. Our stand regarding the Saudi regime is clearer than daylight. There is no ambiguity in our stance since we lack the art of being fork-tongued.

However, in this specific instance, we were on the verge of issuing a detailed statement condemning the Saudi action, but the Shiah thing's statement was made available to us by some Ulama. We have therefore, cancelled our statement and shall not be issuing it. We do not want Muslims to be confused. Whilst we are averse to the present Saudi regime, we do not align ourselves with the Shiahs in their condemnation.

The worst and most horrendous Saudi regime is preferable to the Shiahs whose sights are

focused on capturing Makkah and Madinah. Khomeini, the Shiah imaam, had pledged to exhume the Bodies of Hadhrat Abu Bakr (Radhiyallahu anhu) and Hadhrat Umar (Radhiyallahu anhu) and dump them. Also, the Shiahs believe that Imaam Mahdi (Alayhis salaam) will exhume the body of our Mother, Hadhrat Aishah Siddiqah (Radhiyallahu anha), impale her and stone her for having committed adultery (Nauthubillaah!). May the CURSE of Allah Ta'ala destroy these vilest of devil specimens in human form. At least they do acknowledge that even after fourteen centuries, the Bodies of these noble Sahaabah will still be intact, fresh and fragrant, to enable the devils league (Shiahs) to execute whatever brutality they are contemplating.

AFOSA IS NOT A Muslim institution. It is a Shiah missionary entity operating somewhat similar to the Christian missionary organizations. Conspiracies against Muslims are integral to both Christian missionary organizations and Shiah entities which all operate under the aegis of the Iran government.

Muslims should be alert. It is Fardh for the Ulama – the Molvis and the Sheikhs – even the ulama-e-soo' to educate the masses about the vile kufr beliefs and practices of the Shiahs. Shiahs are extremely deceptive. They raise slogans of unity whilst in their hearts they have daggers for Muslims. Fitnah – anarchy, strife and chaos – are their specialities. May Allah Ta'ala save Muslims from the fitnah of the Shiahs.
