

Counsel: The Message of the Haq

By Hazrat Maulana Muhammad Maseehullah Khan (Rahmatullahi Alaih)

“Whatever misfortune afflicts you is on account of your sins.”

(Surah Shoora, Aayat 30)

Who is oblivious of the waves of anxiety crashing down upon Muslims in these times? Who is not in pain and who does not sympathize with those afflicted with the problems? This sympathy has pressed me to diagnose the disease and present the remedy.

It is therefore submitted that the luxury, pleasure, tranquillity and comfort which Muslims are in search of today, and the road they wish to follow, and the remedy they wish to adopt, can never be found under the guidance of the doctors, professors and scientists of the west. *(All of these morons are the bootlickers of their western masters – The Majlis)*

Following in their footsteps, adopting and affiliating with their political stunts will not provide the desired solution and remedy to the ills of the Ummah.

THE ILLS OF THE UMMAH AND THE CURE

As a matter of fact, the correct cure, the right road, the proper diagnosis of the causes, the prescription and the medicine is the Kitaab of Allah (the Qur'aan and Shariah) which the Greatest Physician, the Master Hakeem, the Gracious Rasool (Sallallahu alayhi wasallam) came with. Only that (the Kitaab of Allah) can diagnose our sicknesses and explain its causes. Its prescriptions can eliminate the viruses, and by virtue of it (the Qur'aan) we can live a life of peace even in this dunya.

The reason for the above is that just as every person's disposition is different and hence his treatment differs. Similarly the disposition of every nation differs and the sickness and treatment for every nation are therefore respectively different. Thus, if any nation can attain the pinnacle of progress on earth through self-centredness and ostentation, and that nation can find pleasure and happiness in idol-worship, it is not conceivable for the Muslim Nation to choose, Allah forbid, such a course of action and adopt such ways to achieve glory and comfort in this world.

In fact, even if such actions and ways are antidotes for other nations then the same is poisonous for the Muslim Nation.

(Here Hadhrat Masihullah – Rahmatullah alayh – is drawing our attention to the stupid 'remedy' which the western bootlickers offer. For them success and glory are to be found in western technology and mundane progress. Whilst these are the tools for the success of the kuffaar, the success of the Ummah is reliant on something else as Hadhrat Masihullah explains further on – The Majlis)

The Book of Cure, the Qur'aan Kareem has diagnosed our sickness in this manner:

THE ILLS OF THE UMMAH AND THE CURE

Written by Hazrat MI M Maseehullah Khan - Last Updated Thursday, 05 April 2018 11:45

“Whoever turns away from My remembrance and obedience then truly his life in this world will become miserable.” (Surah Taha, Aayat 124)

The Tafseer of this is that the one punishment for sinning is indolence and lethargy which will overcome one in Ibaadat, one’s life will become stressed out and one will look for pleasure but will not find it.

Furthermore:

“When you (O Muslims) were overcome with the misfortune of defeat (*in the Battle of Uhud*), whereas they (the disbelievers) were hit with double the misfortune (*at Badr*), then you (*O Muslims!*) said: ‘What has happened!’ Say (O Muhammad): ‘It is on account of your erroneous judgement (*of abandoning the mountain pass against the instructions of the Rasool Sallallahu alayhi wasallam*).’” (Surah Aali Imraan, Aayat 165)

The diagnosis reveals that the cause of the disease is thus sin and transgression. Now, the Qur’aan prescribing the only cure, states:

“Whoever is obedient to Allah and His Rasool, most certainly he has attained a magnificent success.”(Surah Ahzaab, Aayat 71)

Thus, Haq Ta'ala has inextricably interwoven the glory and victory of this Ummah in this world, as well as everlasting pleasure, success and salvation in the Aakhirat in His *Taa'at* (submission and obedience to Him).

Sin and transgression are lethal poisons for the disposition of the Muslim Nation. The only treatment and medication for all our sicknesses and for the obtainal of complete divine help and victory are Taubah and Itaa'at (contrition and submission).

(Inaabat ilal laah – to turn unto Allah Ta'ala in repentance and obedience which envisage adoption of the Sunnah and following the Shariah meticulously – is the one and only solution and remedy for the ills, misery and humiliation in which the Ummah grovels today – The Majlis)

“O Believers! Turn to the Doors of Allah with sincere contrition.” (Surah Tahreem, Aayat 8)

It should be noted that it is the obligatory duty of every Muslim to protect the Shi'aar of Islam (the Salient Features of Islam) and it devolves as a first responsibility upon Muslim leaders to strive and drive tirelessly and relentlessly to protect and preserve the Features of Islam. *(Alas! For us, today, this is a pipe dream. The preponderance of bootlicking molvis, fake sheikhs, juhhaal, fussiaaq and fujjaar leaders confirms that the reformation of this Ummah is now left to Imaam Mahdi – alayhis salaam).*

If, Allah Ta'ala forbid, anything unfavourable emanates from the authorities then bring this to their attention through repeated correspondence. If unsuccessful, then never adopt an anarchical approach. *(i.e. Do not embark on 'jihad' programs orchestrated by the likes of the C.I.A. of America and the IS of Pakistan. These 'jihad' programs are pure anarchy – The Majlis).* Adopt Sabr and Dua, and diligently engage in moral reformation. Supplicate to Allah Ta'ala. The One Who holds absolute power and Who is the True Benefactor will grant you succour in your hour of need just as it transpired in the incident of the As-haab Feel (Army of the Elephants). It is His promise:

“Surely We shall help Our Messengers and the Believers, in this world and on the Day of Qiyaamat.”(Surah Mu-min, Aayat 51)

Furthermore, He proclaims:

“Besides that (i.e. the Garden of Paradise), there is something else which you love, (O Muslims!). Listen to this wonderful news: the Help of Allah (is with you) and also imminent victory.”(Surah Saff, Aayat 13) *(But this Nusrat and Fatah are totally reliant on an Ummah who has cultivated a high degree of morality and spiritual stamina – The Majlis)*

Again, Allah Ta'ala says:

“Don't lose courage and don't grieve. You will be dominant if you are True Believers.”(Surah Aali Imraan, Aayat 139)

(The imperative requisite for this Victory is to become "True Mu'mineen". This cannot be achieved by means of western technology. The Pathway for its acquisition is in the spirituality and simplicity which radiantly shone from the Cave of Hira – The Majlis)

Principles of the Shariah Concerning Practices

Hazrat Maulana Maseehullah (Rahmatullahi alaih) said:

"If something is permissible, however if there is fear of disgrace and insult in doing it, then abstain from that permissible act.

In like manner, if something is *Mustahab*, but it is beset with *makrooh* and *munkar* factors (i.e. that which are reprehensible and abhorrent in the Shariah) then abstain from such a *Mustahab* act.

If, however, the act is among the *Waajibaat* (the obligatory acts) and *makroohaat* and *munkaraat* have
at set in then the
makroohaat
and
munkaraat

shall be eliminated. The
waajib
act shall not be discarded.

These are Shar'i Principles which should be remembered and implemented. If you implement these, you will never grind to a halt in confusion."
