AUSTRALIA

DIVINE PUNISHMENT OVERTAKING THE KHANAAZEER

THE WRITING OF DESTRUCTION IS ON THE WALL FOR THE U.S., U.K. AND SAUDI PIGS

Warning all the rebellious fussaag, fujjaar and kuffaar, and all the brutal oppressive regimes, the Qur'aan Majeed states:

“What! Are the people of the cities oblivious (of the fact) that there will (suddenly) come to them Our Punishment during the night time whilst they are sleeping?”

What! Are the people of the cities oblivious (ofm theb fact) that there will (suddenly) come to them Our Punishment during the day time whilst they are enjoying (themselves) in amusement?”

*What! Are they oblivious of the Plan of Allah? Only a nation of losers is oblivious of the Plan (of Punishment) of Allah.
(Al-A'raaf, Ayaat 97, 98 and 99)*

Media report massive fires raging and ravaging the entire country of Australia. People in their thousands are fleeing to the sea for refuge against the onslaught of Allah's Punishment.

In some places the sun has been blotted out, casting a deep, eerie, frightening orange haze in the sky. The ground is blanketed with ash. Millions and millions of hectares have been destroyed by hundreds of massive blazes. Ash was raining on beaches. A businessman said: “It should have been daylight but it was black like midnight and we could hear the fire roaring. We were all terrified for our lives.”

“Thousands of people have fled to a beach in Victoria to escape bushfires racing towards the coast. Only the wind caused the fire to change direction. Locals in

Mallacoota described a terrifying experience of camping on wharves and boarding boats under blood-red skies.”

COMMENT

While Muslims in several countries are tasting the punishment of Allah Ta’ala in the form of the brutality of oppressive regimes and rulers, Allah Ta’ala is apprehending the kuffaar savages and oppressors with the *Athaab* of natural disasters. This kind of Divine Punishment will incrementally overtake the villainous oppressors.

It is of the Way (Sunnah) of Allah Ta’ala, to utilize the kuffaar to punish rebellious Muslims. Then He apprehends these kuffaar oppressors either by wars among themselves or by means of natural disasters. While these swine regimes are basking in what they believe to be security and power, they will suddenly be eliminated by the Wrath of Allah Azza Wa Jal.

Their nuclear arsenals, militaries, navies, airforces and wealth, etc. will not be able to save them from the destruction they will suffer in the wake of Divine Punishment. No empire endures forever. The colossal stupidity of the baboons in power today in the U.S., U.K., China, India, Saudi Arabia, etc. has precluded them from taking lesson from history and to understand that their current power and domination are not everlasting. Lust and material power have blinded them. But suddenly their eyes will open. The reality will then be shockingly devastating.
