19 Muharram 1443 – 28 August 2021

BASELESS ‘FATWA’ OF THE AUSTRALIAN IMAM’S COUNCIL

In its erroneous and baseless ‘fatwa’ on the issue of vaccines, the Australian Imam’s Council states:

“Medication is a religious issue and concern as mentioned by the Prophet Mohammed (Peace Be Upon Him).”

Every act of the Muslim is a ‘religious’ issue. Nothing of the Muslim is beyond the ambit of the Shariah. Even the act of *Istinja* and its methodology is a ‘religious’ issue. Thus, the significance of issues being religious demands that these issues be executed in strict accord with the Religion, and for us the Religion is the Shariah structured on the Qur’aan and Sunnah as expounded, codified and systematized by the Aimmah Mujtahideen of the Salafus Saaliheen era.

Citing the Hadith, viz. for every disease there is a cure, the Imam’s Council let loose a red herring to create the impression that vaccines are a ‘cure’ created by Allah Ta’ala when in reality this idea is a manifest falsity as thousands of kuffaar medical experts and scientists have testified. However, the Imam’s Council deemed it prudent to sweep under the carpet the research and verdicts of an avalanche of experts, and to present for the basis of its crude and *baatil* fatwa the view of those atheist experts who are all cogs in shaitaan’s covid conspiracy. Why has this dishonest council of imams opted for blindness by completely ignoring the mass of anti-vaccine evidence presented by very senior medical experts and scientists? Why did this miserable council of bootlicking imams abstain from justice and fairness by sweeping under the carpet the mass of evidence which damns the satanic potion of Iblees? The only reason for this chicanery is the bootlicking of this unfortunate council of imams who believe in the wisdom of bootlicking the Australian government.

That the Australian government is one of the vilest agents of Iblees, there is no gainsaying. It would have been infinitely superior and beneficial for the Imaan of these *juhala* imams to have welded their mouths and not intrude into a domain with ignorance thus committing treachery against Islam and the Ummah with a copro-fatwa utterly bereft of Islamic substance.

These scoundrel imams have shamelessly and blatantly pretended that their extremely defective ‘research’ has the status of *Wahi*. What type of a research is it which totally excludes the opposite view which effectively exposes the satanism of the vaccine mafia mob who is perpetrating brutal war crimes on a massive scale with the satanic vaccine weapon. It is a weapon of mass destruction.

We urge Muslims to read the articles of innumerable experts and scientists who have blown off the lid from this satanic cauldron in which these devil’s agents are brewing their witch’s potion to paralyze and decimate humanity. In this brief article we reproduce a brief expose by a medical doctor. In her article she provides such information which crumbles and explodes the vaccine LIE.

While according to the Shariah, medical treatment with *pure substances* is permissible, it is NEVER Waajib. A man of Taqwa is perfectly within the bounds of the Shariah to abstain from even lawful medicine. The example of many Sahaabah and Auliya of high Taqwa and Tawakkul is sufficient testification for this truth.

Treatment for even a known and a real disease is permissible with lawful medicine. For those with weak Imaan it will be permissible to resort to medical treatment with even haraam substances if halaal medicine is NOT available and if it is proven that the haraam substance can cure.

But to invade the human body – a healthy body free of disease – with poison, filth and haraam substances, is NEVER permissible. The potion of Iblees, i.e. vaccine, is a haraam witch-cocktail which introduces disease into the body. In a nutshell, vaccination is the introduction of disease into the human body. This is never permissible in the Shariah. The permissibility of halaal medicine does not render halaal the introduction of disease into the body by means of filth and poison. The numerous incidents of damage and death caused currently by these new covid vaccines loudly screams out the evidence for the *hurmat* of vaccines. This is evil and pure shaitaaniyat which the Jaahil Council of Australian Imams is endorsing to appease and bootlick the Australian government. They are treasonists against Islam. They have treacherously betrayed the Muslim community.

The “muslim” doctors with whom these juhala imams consulted are themselves juhala and munaafiqeen. In fact, they are ignorant even in this secular satanic immunization science. These moron doctors have hitherto miserably failed to rationally and scientifically refute the scientific arguments proffered by the anti-vaccination experts. These moron ‘muslim’ doctors flaunting their *jahaalat* are capable of only disgorging emotional rebuttals devoid of scientific facts.

Displaying their shocking ignorance, the Juhala imams say in their moronic fatwa:

“Based on what was conveyed by the trusted Muslim doctors and medical experts, the vaccine for the Coronavirus is permissible according to the Islamic law as there is no known religious harm attributed to being vaccinated nor does it contain any forbidden substances.”

This statement is pregnant with satanic LIES. These doctors consulted by the moron imams are not trustworthy. They are supposed to be ‘intellectuals’, yet they conceal the mass of

evidence presented by the anti-vaccination experts who are highly qualified personnel in their fields of medicine.

What do these ignoramuses mean by ‘religious harm’? Whatever is haraam and harmful to even the physical body is ‘religiously’ harmful and prohibited. There is a deluge of evidence to prove that vaccines are laced with poison and *najaasat* (impure substances), and that these evil potions cause enduring harm of the gravest kind. But the moron imams are too dim and dense in their brains to understand the scientific facts which the anti-vaccination scientists present, or they (the moron imams) are simply unconcerned with the truth since their objective is to bootlick the Australian government.

The permissibility, in fact incumbency to be vaccinated, stated by the moron imams of Australia is a monstrous falsehood. It is devoid of any Shar’i basis. It is based on the one-sided views of moron ‘muslim’ doctors who are all in league with Iblees. Those who are spear heading this vaccination conspiracy are genuine Satanists.

Muslims in Australia should ignore the corrupt, baseless, satanic moronic ‘fatwa’ of the *juhala* imams council of Australia.

“As concern for population growth started to grow and the final plans to bring in the New World Order were put in place, this LIE CALLED VACCINES was transformed into pure EVIL, as it was realized as that such delivery systems could be used to intentionally cause disease, which is now being done under the US Code, Title 50, Chapter 32, pages 1520 and 1524. You can read it yourself at your local library, or go to <http://www.dcarley.com/Title%2050%20US%20Code.htm>.

(Rebecca Carley, M.D.)

VACCINES- THE WITCH’S BREW VACCINATION –WEAPON OF MASS DESTRUCTION

BY Rebecca Carley, M.D.

Rebecca Carley, M.D. June 28, 2009

“One basic truth can be used as a foundation for a mountain of lies, and if we dig down deep enough in the mountain of lies, and bring out that truth, to set it on top of the mountain of lies; the entire mountain of lies will crumble under the weight of that one truth. And there is nothing more devastating to a structure of lies than the revelation of the truth upon which the structure of lies was built, because the shock waves of the revelation of the truth reverberate, and continue to reverberate throughout the Earth for generations to follow, awakening even those people who had no desire to be awakened to the truth.” (by Delamar Duvaris as written in the preface of “Behold the Pale Horse” by William Cooper).

The basic truth that served as the foundation for the mountain of lies known as vaccinations was the observation that mammals who recover from infection with microorganisms acquire natural immunity from further infections. Whenever T cells (the little packman cells which kill viruses, bacteria, and cancer cells, thus conferring cellular

immunity) and B cells (antibody producing cells which confer humoral immunity) are activated by various substances foreign to the body called antigens, some of the T and B cells become memory cells. Thus, the next time the individual meets up with that same antigen, the immune system can be quickly triggered to demolish it.

This is the process known as immunity.

This truth gave birth to a beLIEf that if a foreign antigen was injected into an individual, that individual would then become immune to a future infection. This beLIEf, (you see the lie in the middle), was given the name, “vaccinations”. What the promoters of vaccination failed to realize is that the respiratory tract of ALL mammals (since animals are just as devastated by these inoculations with disease as are humans) contain secretory IgA (an antibody which initiates the natural God given immune response) within the respiratory tract mucosa. Bypassing this mucosal aspect of the immune system by directly injecting organisms into the bloodstream leads to a corruption in the immune system itself. As a result, the pathogenic viruses or bacteria cannot be eliminated by the immune system and remain in the body, where they will further grow and/or mutate as the individual is exposed to ever more antigens and toxins in the environment which continue to assault the immune system.

Top level mad scientists from Nazi Germany were actually brought to the United States through “Operation Paperclip”, and have been continuing their work to this day in places like Brookhaven labs, Cold Spring Harbor and Plum Island.

The mechanism by which the immune system is corrupted can best be realized when you understand that the two poles of the immune system (the cellular and humoral mechanisms) have a reciprocal relationship. Thus, when one is stimulated, the other is inhibited. Since vaccines activate the B cells to secrete antibody, the T cells are subsequently suppressed. This suppression of the cell mediated response is a key factor in the development of cancer and life threatening infections. In fact, the “prevention” of a disease via vaccination is, in reality, an inability to expel organisms due to the suppression of the cell-mediated response. Thus, rather than preventing disease; they actually prevent the disease from ever being resolved. The organisms continue circulating through the body, mutating and transforming into other organisms (as demonstrated by the work of Professor Antoine Bechamp), depending on the acidity and toxicity of the internal terrain of the body. Note that Bechamp proved that Louis

Pasteur’s “germ theory” of disease was incorrect due to this ability of organisms to transform and mutate based on the body’s internal terrain (as Pasteur admitted on his deathbed). Thus, treatment of infection with antibiotics as well as “prevention” of disease with vaccines are both just examples of cutting off the branches of dis-ease, when the root of the cause is a toxic internal environment. However, since Pasteur’s germ theory was conducive to the profits of the burgeoning pharmaceutical companies who only manage dis-ease, no mention of the work of Professor Bechamp has been made in medical school curricula.

To make matters worse than the suppression of cellular immunity which occurs when vaccines are injected, adjuvants (which are substances added to vaccines to enhance the antibody response) can actually lead to serious side effects themselves. Adjuvants include oil emulsions, mineral compounds (which may contain the heavy metal aluminum), bacterial products, liposomes (which allow delayed release of substances), and squalene. The side effects of adjuvants themselves include hyperactivity of B cells leading to pathologic levels of antibody production, as well as allergic reaction to the adjuvants

themselves (as demonstrated in Gulf War I soldiers injected with vaccines containing the adjuvant squalene, to which antibodies were found in many soldiers). Note that the pathologically elevated hyperactivity of antibody production caused by adjuvants also results in a distraction from the other antigens that the immune system encounters “naturally”, which must be addressed to maintain health.

This hyperactivity of the humoral (antibody producing) pole of the immune system is, in this author’s opinion, the sole cause of all autoimmune diseases. The only thing which determines which autoimmune disease you develop is which tissues in your body are attacked by autoantibodies.

If the inside lining of the gastrointestinal tract (the mucosa) is attacked by autoantibodies you develop leaky gut syndrome (which leads to food allergies when partially digested food particles are released into the bloodstream, are recognized as antigens foreign to the body, and elicit an antibody response against those food particles that becomes heightened every time that same food is eaten and released into the bloodstream partially digested again). Crohn’s disease and colitis are also caused by auto-antibody attack on the mucosa of the GI tract itself. If the islet (insulin producing) cells of the pancreas are attacked by auto-antibodies, you develop insulin dependent (juvenile) diabetes. If the respiratory mucosa is attacked by auto-antibodies, you develop “leaky lung” syndrome where, just as with leaky gut, antigens recognized as foreign to the body which are inhaled are able to traverse the lining of the respiratory tract, causing the creation of antibodies against those antigens (usually dust, mold, pet or pollen antigens). When these substances are inhaled again, the allergic response producing constriction of the bronchioles is called asthma. If the components of the articular surface of the joints are attacked by auto-antibodies, you develop rheumatoid (or juvenile) arthritis. If the skin is attacked, you develop “leaky skin” syndrome, where contact antigens which could not otherwise traverse the skin are allowed in, leading to skin allergies to contact antigens. Additionally, depending on which level of the skin is attacked by auto-antibodies, (i.e., the epidermis or dermis), you develop eczema, psoriasis or scleroderma. If the kidney tissue is attacked by auto-antibodies, you develop one of the many types of nephritis, depending on which component of renal tissue is attacked (for example, with glomerulonephritis, the basement membrane of the glomerular apparatus within the kidney (which filters blood to form urine) is attacked by auto-antibodies, thus allowing protein to escape from the serum into the urine). If you develop auto-antibodies against thyroid gland tissue, you develop Grave’s disease. If you develop auto-antibodies against the tissue of the thymus gland (which is crucial in T cell production and function), you develop myasthenia gravis. If you develop auto-antibodies against the very DNA in the nucleus of all cells, you develop systemic Lupus (thus, the potential autoimmune potential of DNA vaccines being developed now is self evident; worse yet, DNA components from these vaccines can be incorporated into your DNA, leading to actual genetic changes which could cause extinction of all (vaccinated) life on the Earth). And on, and on, and on.

The brain and spinal cord can also be attacked with auto-antibodies (which this author refers to as vaccine induced encephalitis), leading to a variety of neurological diseases. The most severe of these, leading to death, are sudden infant death syndrome (SIDS) and most cases of “shaken baby syndrome”. If components of the myelin sheath (the insulating covering of nerve fibers which allows proper nerve conduction) or the actual neurofilaments themselves are attacked by auto-antibodies, the resultant condition is determined solely by the location of the damage done.

Such neurological conditions include but are not limited to minimal brain dysfunction, ADD/ADHD, learning disabilities, mental retardation, criminal behavior, the spectrum of pervasive developmental disorders (including autism), multiple sclerosis, Parkinson's, Lou Gehrig's disease, Guillen Barre,, seizure disorders, etc., etc. etc. (Please note that other toxins are also sometimes involved, such as: aspartame, Lymes and mercury in cases of MS; aspartame in seizures; or pesticides in cases of Parkinson's). Thus, when detoxing to reverse these diseases, these other substances must also be detoxed to obtain a full recovery. However, the corruption of the immune system caused by the injection of vaccines is a key component in these disease states leading to immune malfunction, and is the reason why an autistic child may also have leaky gut or eczema, etc. Note that myelin production, for the most part, does not begin until after birth.

Most myelin is apparently laid down by age 5 years and usually completed by age 10 years, judging by the level of success at various ages in reversing autistic and other neurological VIDS symptoms that this author has observed in hundreds of children by detoxing the viruses with homeopathic nosodes, and repairing the immune corruption by simultaneous administration of bovine colostrum (i.e., after 10 years of age, the ability to stop and repair auto-antibody induced damage in the myelin sheath and neurofilaments themselves is dramatically decreased).

Thus, the hyperactivity of the humoral arm of the immune system in autoimmune disease is caused by adjuvants added just for that purpose. However, the autoimmunity itself (i.e., antibody against self) has several mechanisms, including the following:

1. The antigens present in the culture media itself cannot be completely filtered and separated from the organisms cultured thereon. Thus, any antibodies formed against antigens from the culture cells themselves (for example myelin basic protein from chick embryos or the 13 vaccines which now contain aborted fetal cells) can cross-react to form an autoimmune reaction against the myelin basic protein in your myelin sheath, etc.
2. Molecular mimicry is due to similarity of proteins contained in organisms and mammals. (For example, the measles virus is made up of proteins similar to myelin basic protein; thus, antibodies formed against the measles virus antigens subsequently also cause an auto-antibody attack against myelin basic protein in the myelin sheath due to cross reactivity of these antibodies).
3. intentional inclusion of antigens in vaccines to cause formation of antibodies that attack specific hormones or races (for example, experiments done on women of childbearing age in the Philippines and probably other locations where HCG (human chorionic gonadotropin, the hormone produced when women first become pregnant) placed into vaccines given these women resulted in antibodies against the HCG hormone, and subsequent spontaneous abortion thus occurred when the women became pregnant. It is also this author's hypothesis that the epidemic of vitiligo in people of color (hypo pigmentation of skin caused by auto-antibody attack on melanocytes (melanin producing cells) in skin) is also occurring due to intentional inclusion of melanin in vaccines given to people of color.

In addition to the above phenomena which lead to simultaneous depression of cellular immune function and hyperactivity of humoral immune function, vaccines also contain other toxic substances which can cause serious side effects themselves. The following ingredients are actually listed on the CDC website with this introductory statement: "Many

things in today's world, including food and medicines, have chemicals added to them to prevent the growth of germs and reduce spoilage." Translation: you're already toxic, so what's the big deal with adding more poison? This author's answer to that question is that any immunotoxin can end up being the "straw that breaks the immune system's back" in that individual, leading to dis-ease. This is where genetics is key; i.e., not that what disease you develop is actually caused by some "gene" in most cases; but rather that your genes determine the strength of your immune system (i.e., how many assaults your immune system can take before it reaches critical mass, and you develop a dis-ease).

Some additional ingredients in vaccines (as listed by the CDC on their website) include antibiotics, aluminum gels, formaldehyde, monosodium glutamate (MSG), egg protein, and sulfites. Thus, we have antibiotics (which you could be allergic to); aluminum (highly involved in causing Alzheimer's disease); formaldehyde (a toxic carcinogenic substance used to pickle dead people); MSG (a potent excitotoxin which, like aspartame, can cause seizures, brain tumors, etc.); egg protein (to which you could have a life threatening anaphylactic reaction); and sulphites (another toxin which we are advised not to consume much of orally, but in vaccines, it is injected directly into the blood stream). Is this not a veritable witch's brew of chemicals, organisms, and animal or human (aborted fetus) body parts? Note in this list that they do not mention the ethylmercury containing preservative thimerosal, which has been the only dangerous substance in vaccines to receive mainstream media attention (albeit most of that being disinformation) after the explosion in the rate of occurrence of autism in the last generation became self-evident proof that vaccines are the causative factor. For, although the scientists working for the medical mafia continue to use statistics to twist and spin their data to make us beLIEve that vaccines are not the cause, too many thousands of parents have watched their children enter the downward spiral into autism after their children received the vaccine which was the straw that broke the back of their child's immune system. No matter what the "white coats" tell these parents; they know the truth!

Mercury (also in dental amalgam fillings) is a highly toxic heavy metal, has been documented to cause cancer, and can be absorbed through the digestive track, skin, and respiratory track.

Mercury is 1,000 times more toxic than lead, and is second only to uranium as the most toxic metal. If children receive all recommended vaccines, they will receive 2,370 times the "allowable safe limit" for mercury in the first two years of life (as if there is such a thing as a "safe" amount of a toxic poison). Yet, even after Congressional hearings instigated by Congressman Dan Burton (whose own grandchild became autistic after receiving vaccines) resulted in the FDA requesting (not ordering) vaccine manufacturers to remove this toxic heavy metal from their products, mercury is still present in many vaccines.

Although the symptoms of mercury poisoning are identical to the symptoms of autism, it should be noted that most children who descend into the hellish state known as autism do so after the MMR vaccine. The MMR vaccine is one of the few vaccines that do not contain mercury. Thus, it is self-evident that the removal of mercury will not make vaccines "safe". (This is why the mercury is the only thing being addressed at all; because when the people reading this paper realize that the very mechanism by which vaccines corrupt the immune system means that NO vaccine is safe and effective; there will be an evolution of consciousness where the structure of lies telling us vaccines are safe and

effective disintegrates.) In the autistic community, this will lead to an exodus from the multiple autism groups saying it is all about the mercury or worse yet, that autism genes are “inherited”, to the only group which has their focus on the actual

problem. This group is named TAAP (the Autism Autoimmunity Project at www.taap.info/), and is led by April Oakes. In this author’s opinion, it will be TAAP in alliance with the vaccine damaged soldiers and vets of the American Gulf War Veterans Association at www.agwva.org led by Peter Kawaja which, working together, will stop this holocaust on humanity called VIDS. The good news is that these VIDS can be reversed using natural remedies contained in the Hippocrates Protocol (www.drcarley.com). This “surgical strike” detoxification approach which has the potential to reverse ALL of the aforementioned conditions under the VIDS umbrella as long as detoxification is started early enough (before age 10 for neurological VIDS) will be the one truth put on top of the mountain of lies (that vaccines are safe and effective) that will cause the entire mountain of vaccine lies to crumble. Combined with a massive outpouring of public support to these two organizations, the root of the tree of vaccine evil will be exposed. Thus, the holocaust on humanity (where instead of people being put in concentration camps, the concentration camps are being put into the people) will finally be put to an end.

Unfortunately, we can no longer pretend that this epidemic of VIDS is merely a “mistake” made by good intentioned, albeit misguided mad scientists. Because it’s even worse than the above, folks we are talking TREASON and CRIMES AGAINST HUMANITY, PETS, and even PLANTS, (which are also being genetically modified to create vaccines). The evidence for this is as follows:

As concern for population growth started to grow and the final plans to bring in the New World Order were put in place, this lie called vaccines was transformed into pure evil, as it was realized that such delivery systems could be used to intentionally cause disease, which is now being done under the US Code, Title 50, Chapter 32, § 1520 and 1524. You can read it for yourself at your local library, or go to

<http://www.drcarley.com/Title%2050%20US%20Code.htm> .

This law has been in place since the 1960’s, and it was last modified in April of 2000. The only stipulation made for experimentation on human subjects is that local civilian officials be notified 30 days before the experiment is started. Section 1524 adds that the Secretary of Defense may enter into agreements with the Secretary of Health and Human Services to provide support for vaccination programs through use of excess peacetime biological weapons (i.e., weapons of mass destruction). In April 2000, § 1520 (a) was passed to put alleged restrictions on the use of human subjects for testing of chemical or biological agents after a caller on C Span mentioned this law in 1999, which revealed this treasonous law to a huge audience of listeners (including this author, who has been including it in lectures and written materials since that call came into “Washington Journal”). However, the exceptions written to Title 50, chapter 32 under § 1520 subsection (b) in the 2000 law passed by our aiders and abettors of treason in Congress not only loophole back in a test carried out for “any peaceful purpose that is related to a medical, therapeutic, pharmaceutical, agricultural, industrial, or research activity”; but add that such biological and chemical warfare agents can now be also used for any law enforcement purpose, including “any purpose related to riot control” (just in case those C Span listeners should actually get off the couch at the horror of what the traitors in Washington, D.C. are doing to God’s people). Subsection (c) of this law now mandates that “informed consent” be

required. In reality, not a single vaccine has ever been tested for its long term side effects (including carcinogenic potential). Additionally, the intentional introduction of stealth viruses, (including man-made viruses that cause cancer, mycoplasma and the HIV virus), antigens which target certain races, (and surely a microchip in the future) into vaccines makes it self evident that informed consent is impossible, as it would initiate impeachment proceedings and war crimes trials against every “public servant” involved in perpetrating these crimes against the American people, in violation of the Nuremberg Code (which was written after the end of WW II to prevent the barbaric experiments that occurred in the Nazi concentration camps).

What most people don't know is that the top level mad scientists from Nazi Germany were actually brought to the United States through “Operation Paperclip”, and have been continuing their work to this day in places like Brookhaven labs, Cold Spring Harbor and Plum Island in this author's backyard on Long Island. (To see the document proving that American scientists created the HIV virus, this author refers you to p. 442 of *Death in the Air* by Dr. Leonard G. Horowitz, where you can read the 1969 document in which the U.S. military/CIA and Rockefeller directed National Academy of Sciences-National Research Council (NAS-NRC) announced that a research program to explore the feasibility of “creating a new infective microorganism which would be refractory to the immunological and therapeutic processes upon which we depend to maintain our relative freedom from infectious disease” could be completed at a total cost of \$10 million.) Yes, this is what your tax dollars are going towards, folks. But hang on to your hat, because it only gets worse.

The most heinous, bone chilling and evil piece of this puzzle has been revealed to the world by an American hero named Peter Kawaja, who worked in the late 1980's as a security and counter terrorism expert for the United States government (a service for which he has been rewarded with the murder of his wife, torching of his home, issuance of a war crimes subpoena to (they thought) confiscate all his evidence, illegal IRS liens on all subsequent income, and multiple attempts on his own life, all funded by YOUR tax dollars). Please go to www.agwva.org/mission.htm and read some of the 34 counts that Mr. Kawaja brought against the domestic traitors to America (in both their individual and governmental capacities) in a federal lawsuit in which the perpetrators, again, used your tax dollars to hire themselves attorneys from the Department of “Justice” whose defense of their war criminal clients was that they are “immune, under color of law”. (You can listen to Mr. Kawaja on one of his multiple internet radio shows, including “What's Ailing America?” which he co-hosts with this author at www.highway2health.net every Wednesday at 10 PM, EST.

Dr. James R. Shannon, former director of the National Institute of Health reported in December, 2003 that “the only safe vaccine is one that is never used”. However, the reverberating truth, “the shot heard round the world” which will lead to the evolution of consciousness necessary to stop the holocaust against humanity known as vaccinations, will be that not only are vaccinations not safe or effective, but that they are actually weapons of mass destruction being perpetrated upon humanity in the name of health, for the purpose of genocide and to bring in the New World Order. Part 2 of the genocidal plan could drop anytime with activation of the Model State Health Emergency Powers Act whenever the next fabricated terrorist attack using biological agents occurs. Worse yet, the Congressional traitors in Washington posing as public “servants” are doing all they can to pass “Codex” legislation which will make the natural remedies and supplements used in

the Hippocrates Protocol developed by this author to reverse all dis-eases only available by prescription. So, you didn't hear about that on your local news station either? Please go to the site of another American hero, John Hamill of the International Alliance for Health Freedom (who reversed his schizophrenia symptoms with these natural supplements and has dedicated his life to stop Codex from passing) at www.iahf.com .

Wake up, America-it's getting very late. It is time for the mountain of lies to crumble. Please spread the word to everyone you know we can make it happen. The time to stop chopping at branches and get to the root of this evil is now.

EIGHTEEN REASONS WHY YOU SHOULD NOT VACCINATE YOUR CHILDREN

by Bill Sardi

A Fatal Heart Attack Can Occur With Normal Coronary Arteries

This year it is more important that you protect your children and loved ones from the flu vaccines than influenza itself. Here are the reasons:

1. This flu is simply another flu. It is not unusually deadly. In fact, the H1N1 swine flu in circulation is less deadly than many other influenza outbreaks. The first 1000 confirmed swine flu cases in Japan and China produced zero deaths. The Centers for Disease Control alleges 36,000 Americans succumb to the flu each year, but so far, since March through August of 2009 (6 months), the swine flu has been attributed to ~500-600 deaths in the US. The swine flu of 2009 has already swept through the Southern Hemisphere's flu season without alarm.

Only exaggerated reports have been issued by the World Health Organization regarding hospitalizations required during the flu season in South American countries. Getting exposed to influenza and developing natural antibodies confers resistance for future flu outbreaks. Artificially boosting antibodies by exposure to flu viruses in vaccines is more problematic than natural exposure. Americans have been exposed to the H1N1 swine flu throughout the summer of 2009 with far fewer deaths and hospitalizations than commonly attributed to the seasonal flu.

2. Health authorities tacitly admit prior flu vaccination programs were of worthless value. This is the first time both season and pandemic flu vaccines will be administered. Both seasonal flu and swine flu vaccines will require two inoculations. This is because single inoculations have failed to produce sufficient antibodies. Very young children and older frail adults, the high-risk groups in the population, may not produce sufficient antibodies in response to the flu vaccine. This is an admission that prior flu vaccines were virtually useless. The same people who brought you the ineffective vaccines in past years are bringing you this year's new vaccines. Can you trust them this time?

3. In addition to failure to produce sufficient antibodies, this swine flu vaccine is brought to you by the same people who haven't been able to adequately produce a seasonal flu vaccine that matches the flu strain in circulation. In recent years flu vaccination has been totally worthless because the strains of the flu in circulation did not match the strain of the virus in the vaccines. Authorities claim the prevalent flu strain in circulation in mid-September '09 is the H1N1 swine flu, which appears to be milder than past seasonal influenza in circulation. If this data is correct, why receive the season flu shot this year?

4. The vaccines will be produced by no less than four different manufacturers, possibly with different additives (called adjuvants) and manufacturing methods. The two flu inoculations may be derived from a multi-dose vial and in a crisis, and in short supply, it will be diluted to provide more doses and then adjuvants must be added to trigger a stronger immune response. Adjuvants are added to vaccines to boost production of antibodies but may trigger autoimmune reactions. Some adjuvants are mercury (thimerosal), aluminum and squalene. Would you permit your children to be injected with lead? Lead is very harmful to the brain. Then why would you sign a consent form for your kids to be injected with mercury, which is even more brain-toxic than lead? Injecting mercury may fry the brains of American kids.

5. This is the first year mock vaccines have been used to gain FDA approval. Mock vaccines are made to gain approval of the manufacturing method and then the prevalent virus strain in circulation is added just days before it is actually placed into use. Don't subject your children to experimental vaccines. Yes, these vaccines have been tested on healthy kids and adults, but they are not the same vaccines your children will be given. Those children with asthma, allergies, type I diabetes, etc. are at greater risk for side effects. Children below the age of 2 years do not have a sufficient blood-brain barrier developed and are subject to chronic brain infections that emanate into symptoms that are called autism. Toddlers should not be subjected to injected viruses.

6. Over-vaccination is a common practice now in America. American children are subjected to 29 vaccines by the age of two. This means a little bit of disease is being injected into young children continually during their most formative years! Veterinarians have backed off of repeat vaccination in dogs because of observed side effects.

7. Health officials want to vaccinate women during pregnancy, subjecting the fetal brain to an intentional biological assault. A recent study showed exposure flu viruses among women during pregnancy provoke a similar gene expression pattern in the fetus as that seen in autistic children. This is a tacit admission that vaccines, which inject a little bit of influenza into humans, causes autism.

8. Modern medicine has no explanation for autism, despite its continued rise in prevalence. Yet autism is not reported among Amish children who go unvaccinated. Beware the falsehoods of modern medicine.

9. School kids are likely to receive nasally-administered vaccines (Flu-Mist) that require no needle injection. But this form of live vaccine produces viral shedding which will surely be transmitted to family members. What a way to start an epidemic!

10. This triple reassortment virus appears to be man made. The H1N1 swine flu virus of 2009 coincidentally appeared in Mexico on the same week that President Nicolas Sarkozy of France visited Mexican president Felipe Calderon, to announce that France intends to build a multi-million dollar vaccine plant in Mexico. An article written by Ron Maloney of the Seguin, Texas Gazette-Enterprise newspaper announces a "rehearsal for a pandemic disaster" scheduled for May 2, 2009. The article says: "Guadalupe County emergency management and their counterparts around the country are preparing for just such a scenario..." This means county health authorities across the U.S. had been preparing a rehearsal for mass vaccinations prior to the announced outbreak in Mexico. Virologists admit this part swine flu/part avian flu/part human flu virus must have taken time to develop. But it somehow wasn't detected by hundreds of flu monitoring stations across the

globe. On April 24, 2009 Dr. John Carlo, Dallas County Medical Director, alludes that the H1N1 strain of the Swine flu as possibly being engineered in a laboratory. He says: "This strain of swine influenza that's been cultured in a laboratory is something that's not been seen anywhere actually in the United States and the world, so this is actually a new strain of influenza that's been identified." (Globe & Mail, Canada)

11. Recall the swine flu scare of 1976. In a politically charged atmosphere where Gerald Ford was seeking election to the Presidency, the swine flu suddenly appeared at a military base. Vaccine was produced and millions of Americans were vaccinated. But the vaccine was worse than the disease, causing hundreds of cases of Guillain Barre syndrome and a few deaths. In a replay of the past, the White House is directly involved in promoting the H1N1 2009 swine flu vaccine. The federal government will use federal funds to pay off schools to administer vaccines, promote vaccination via highway billboards and TV advertisements, and conduct military-style mass inoculations in such rapid fashion that if side effects occur, it will be too late. The masses will have been vaccinated already. Over \$9 billion has been allotted by the federal government to develop and deliver an unproven and experimental flu vaccine. Don't be a guinea pig for the government.

12. Researchers are warning that over-use of the flu vaccine and anti-flu drugs like Tamiflu and Relenza can apply genetic pressure on flu viruses and then they are more likely to mutate into a more deadly strain. US health authorities want 70% of the public to be vaccinated against the flu this '09 season, which is more than double the vaccination percentage of any prior flu season. This would certainly apply greater genetic pressure for the flu to mutate into a more virulent strain.

13. Most seasonal influenza A (H1N1) virus strains tested from the United States and other countries are now resistant to Tamiflu (oseltamivir). Tamiflu has become a nearly worthless drug against seasonal flu. According to data provided by the Centers for Disease Control, among 1148 seasonal flu samples tested, 1143 (99.6%) were resistant to Tamiflu!

14. As the flu season progresses the federal government may coerce or mandate Americans to undergo vaccination. France has already ordered enough vaccine to inoculate their entire population and has announced that vaccination will be mandatory. The US appears to be waiting to announce mandatory vaccination at a later date when it can scare the public into consenting to the vaccine. The federal government is reported to be hiring people to visit homes of unvaccinated children. This sounds like the Biblical account of Pharaoh attempting to eradicate all the young Israelite baby boys. Must we hide our babies now?

15. Public health authorities have cried wolf every flu season to get the public to line up for flu shots. Health authorities repeatedly publish the bogus 36,000 annual flu-related deaths figure to scare the public into getting flu shots. But that figure is based on the combined deaths from pneumonia in the elderly and the flu. Maybe just 5000-6000 or so flu-related deaths occur annually, mostly among individuals with compromised immune systems, the hospitalized, individuals with autoimmune disease or other health problems. As stated above, the swine flu in full force has only resulted in ~500-600 deaths in the first six months in circulation and it is far more dreaded by public health authorities than the seasonal flu. The Centers for Disease Control issues a purchase order for flu vaccines and then serves as the public relations agency to get the public to pay for the vaccines. Out of a population of 325 million Americans, only 100 million doses of flu vaccine have been administered each year and no epidemic has erupted among the unvaccinated.

16. The news media is irresponsible in stirring up unfounded fear over this coming flu season. Just exactly how ethical is it for newspapers to publish reports that a person has died of the swine flu when supposedly thousands die of the flu annually? In the past the news media hasn't chosen to publicize each and every flu-related death, but this time it has chosen to frighten the public. Why? Examine the chart below. The chart shows that the late flu season of 2009 peaked in week 23 (early June) and has dissipated considerably.

While every childhood flu-related death should be considered tragic, and the number of flu-related pediatric deaths in 2009 is greater than prior flu seasons as a percentage, in real numbers it is not a significant increase.

According to data provided by the Centers for Disease Control, for week 34 ending August 29, 2009, there were 236 hospitalizations and 37 deaths related to the flu. That would represent just 5 hospitalizations and less than one death per State, which is "below the epidemic threshold."

17. Public health officials are irresponsible in their omission of any ways to strengthen immunity against the flu. No options outside of problematic vaccines and anti-flu drugs are offered, despite the fact there is strong evidence that vitamins C and D activate the immune system and the trace mineral selenium prevents the worst form of the disease where the lungs fill up with fluid and literally drown a flu-infected person. The only plausible explanation as to why the flu season typically peaks in winter months is a deficiency of sunlight-produced vitamin D. Protect your family. Arm your immune system with vitamins and trace minerals.

18. Will we ever learn if the flu vaccine this year is deadly in itself? In 1993 the federal government hid a deadly flu vaccine that killed thousands of nursing home patients. It was the first year that flu shots were paid for by Medicare. The vaccine-related mortality was so large that this set back the life expectancy of Americans for the first time since the 1918 Spanish flu! Mortality reports take a year or two to tabulate and the federal government may choose not to reveal the true mortality rate and whether it was related to the flu or the vaccines. You say this couldn't happen?

It did in 1993!
