"THE MMB IS MORE THAN UNCONSTITUTIONAL" SAYS THE LEGAL RESOURCES CENTRE

In its Submission to the Minister of Justice & Constitutional Development, the *Legal Resources Centre* emphasized the following salient features of the Muslim Marriages Bill:

* **"It is our submission that the law proposed by the Muslim Marriages Bill is irreconcilably unconstitutional."**

* "...However, accepting Islamic marriage law as contained in the Bill would be more than just unconstitutional – it would be an absolute abandonment of many of our most important democratic principles."

*** "It is our submission that in order for the Bill to survive constitutional muster the Bill has to correct every problem addressed in this submission and any other flaws fully, by bringing it completely in line with the Constitution."**

*** "...there does not seem to be a compromise solution that is simultaneously able to protect religious rights and adhere to our constitutional principles."**

While the above is the constitutional position of the corrupt KUFR MMB, the Shar' i position is that the KUFR so-called 'Muslim' Marriages Bill is totally unacceptable. Almost every provision is kufr, acceptance of which can culminate in irtidaad, expelling the proponent and supporter beyond the pale of Islam. Every Muslim MUST reject the Kufr Bill. Protest and object! Send your objection to the Minister of Justice whose details are as follows:
