We have previously reported how Israel rapidly vaccinated the highest percentage of their population with experimental COVID vaccines after the Israeli government struck a bargain with Pfizer to secure millions of doses of their mRNA COVID vaccines.

Vera Sharav [wrote](#) :

It is astonishing that the government of Israel entrusted the health of the people to Pfizer; by entering into a secret contract that enrolled the Israeli population to become research subjects, without their knowledge or consent.

To date, Israel has vaccinated over 53% of their population, twice the percentage of the next closest nation, Britain, with 26.9%.

The “official news” published by the corporate media claiming that the vaccines have been effective in reducing rates of COVID in Israel has been scrutinized and examined by Aix-Marseille University Faculty of Medicine Emerging Infectious and Tropical Diseases Unit’s Dr. Hervé Seligmann and engineer Haim Yativ, who published their results on a discussion forum website called “[Nakim](#) .”

The information quickly went viral, and has now been translated into several languages and addressed on various news sites around the world, including [Arutz Sheva 7](#), [IsraelNationalNews.com](#)

[Mordechai Sones writes](#) :

A front-page article appeared in the *FranceSoir* newspaper about findings on the *Nakim* website regarding what some experts are calling “the high mortality caused by the vaccine.”

The paper interviews Aix-Marseille University Faculty of Medicine Emerging Infectious and Tropical Diseases Unit’s Dr. Hervé Seligmann and engineer Haim Yativ about their research and data analysis.

They claim that Pfizer’s shot causes “mortality hundreds of times greater in young people compared to mortality from coronavirus without the vaccine, and dozens of times more in the elderly, when the documented mortality from coronavirus is in the vicinity of the vaccine dose, thus adding greater mortality from heart attack, stroke, etc.”

Dr Hervé Seligmann works at the Emerging Infectious and Tropical Diseases Research Unit, Faculty of Medicine, Aix-Marseille University, Marseille, France. He is of Israeli-Luxembourg nationality. He has a B. Sc. In Biology from the Hebrew University of Jerusalem, and has written over 100 scientific publications.

FranceSoir writes that they follow publications, data analyzes, and feedback from various countries on vaccination, and have therefore taken an interest in the *Nakim* article, asking to interview them in order to understand their analysis and its limitations.

The authors of the article declare they have no conflicts or interests other than having children in Israel.

After a presentation, the authors discussed their data analysis, the validations carried out, limitations, and above all, their conclusions that they compare with data received via a Health Ministry Freedom of Information Act request.

Their findings are:

- There is a mismatch between the data published by the authorities and the reality on the ground.
- They have three sources of information, besides the emails and adverse event reports they receive through the Internet. These three sources are Israeli news site *Ynet*, the Israeli Health Ministry database, and the U.S. federal Vaccine Adverse Event Reporting System (VAERS) database.
- In January 2021, there were 3,000 records of vaccine adverse events, including 2,900 for mRNA vaccines.
- Compared to other years, mortality is 40 times higher.
- On February 11, a *Ynet* article presented data related to vaccination. The authors of the *Nakim* article claim to have debunked this analysis based on data published by *Ynet* itself: "We took the data by looking at mortality during the vaccination period, which spans 5 weeks. By analyzing these data, we arrived at startling figures that attribute significant mortality to the vaccine."
- The authors say "vaccinations have caused more deaths than the coronavirus would have caused during the same period."
- Haim Yativ and Dr. Seligmann declare that for them, "this is a new Holocaust," in face of Israeli authority pressure to vaccinate citizens.

They also invite specialists to complete their analyses, and intend to pursue legal follow-up to their discovery. The Health Ministry was not available for comment on a *FranceSoir* query regarding the findings.

The authors also deplored “the fact of not being able to communicate on this vital information” to their fellow citizens.

Mordechai Sones also has his own radio broadcast in Israel, and a few weeks ago he began his broadcast by reading the names of 28 people who have died following the Pfizer experimental COVID mRNA injections.

The list begins with some elderly Rabbis, but also includes young people who reportedly had no existing health problems and died suddenly, including a 25-year-old woman.

After reading these 28 names, Mordechai states:

The list continues, but cannot be brought here in its entirety due to time constraints.

An Israeli man who posted this reading on YouTube stated:

I made this short video with an audio broadcast of Mordechai Sones; so that I could pass on the information that many people here in Israel have been dying after receiving the Pfizer Covid-19 Vaccine.

But none of this information seems to be making it into the mainline media.
