Page 32 (3 adverts)

Page 33 (full page Al Imdaad advert)

Back and last page (full page FNB advert)

*** there is not a single page which does not have an advert***

This high gloss magazine is a deception and should be banned from the Masajids as it is encouraging trade and is placed in the Masjid to make their jobs so much easier. The name Islam today indicates that this is how Islam is today...it's all of the above....money...money...dunya...dunya... and very few copy and pasted Islamic articles!
