GIRLS MADRASAHS AND LESBIANISM

The following information provided by a Sister, while shocking and disgusting in the extreme, is not at all surprising:

As salamu alaikum warah matullahi wa barakatu

After reading mufti sahebs articles regarding child molestation and the one brother's email quoting (with regards to stay in madrasahs) "You go in straight and come out gay", I cannot emphasise enough on how true this is.

I have studied at a girls boarding institute in Zakariyya Park, Madrasah Mueinul Islam. Unfortunately back then, we were under our parents who thought that by sending us to such institutes they are doing us a good deeni favour. I have personally witnessed many cases of 2 girls becoming overly close. We would see some girls with love bites on their necks, catch them sleeping together under the same blanket, always holding hands, even kissing each other very intimately.

Once I had personally spoken to a girl involved in such a relationship who herself told me how she regrets her actions and mentioned some very disturbing things she and her "partner" would do, very intimate. Allah save us and our daughters.

There are many such cases in that madrasah. **(In fact, in all such madrasahs – The Majlis)** May Allah tala guide the parents to make the correct decision regarding their children's upbringing. Many are not aware of this and think that such madrasahs are for the best interest of their daughters' deen, when the reality is far worse.

(End of the Sister's letter)

COMMENT

The consequences of acting in contravention of the Shariah are always disastrous and destructive for Imaan and Akhlaaq.

The idea of girls madrasahs is an inspiration of shaitaan. Iblees has achieved great success in the establishment of these institutions for girls whose morals are generally ruined. Girls madrasahs are unnatural and in violation of the Qur'aan and Sunnah. Girls are supposed to be at home, especially during their young age which is the formative era for the development of their Akhlaaq and the home-skills which Allah Ta'ala has ordained for them. All of this is neutralized, in fact destroyed in the years of their stay at the unnatural institutions spawned on the advice and inspiration of Iblees.

Molvies are the worst culprits in this regard. They have ruined the lives, moral and spiritual, of countless thousands of girls under 'deeni' camouflage. Whatever of the evil and immorality the Sister has mentioned, is prevalent in *all* of these institutes of Iblees, and much more.

In addition to the accursed shaitaani-inspired acts of sexual perversion, considerable time of the girls is destroyed in gheebat (scandalling and gossiping). They grow up as misfits lacking in the skills which Allah Ta'ala has ordained for them. That is precisely why the marriages of these madrasah apas generally end in failure.

These institutions wreck the natural *Haya* of the girls. As a result, they become shameless and audacious. They vie in audacity with their western kuffaar counterparts. They become experts of misunderstanding and misinterpretation of the smattering of 'ilm' they acquire from their vastly incompetent teachers who themselves are villains cloaked with deeni apparel.

A bulky volume can be prepared to enumerate much of the shaitaaniyat, nafsaniyat, filth and immorality with which these institutions are plagued. These madrasahs are among the most potent snares of Iblees. He has utilized this powerful snare effectively for maximum fulfilment of his pernicious objectives. After all, it was Allah Azza Wa Jal Who had designated women as *Habaailush Shaitaan (The Traps of Shaitaan)*. The harvest of these unnatural shaitaani institutions is misfits – zombie girls whose natural thinking and femininity have been satanically impaired.

Trapped in these Ibleesi Snares, molvies, parents and the girls have gone a great distance in achieving the shaitaan's goal of destroying the moral fibre of the Ummah. May Allah Ta'ala bestow *hidaayat* to these wayward molvies and sheikhs so that they better understand the disaster for which they are responsible. These shaitaani institutions should be closed and this unnatural phenomenon should be obliterated.
