SAHUC
ITS DEVIOUS PRESS RELEASE

In its press release dated 27 September 2025, SAHUC states:

"SAHUC further advises that the matter of the Non-Refundable Registration Fee ranging from R100 to R300 per person (excluding VAT), and its treatment in the prevailing circumstances, is under review in consultation with all relevant stakeholders, including the Ulama.
A formal update on this matter will be communicated tothe public in clue course, In Shaa Allah."

This statement pertaining to the haraam "non-refundable registration fee" is of little significance in the SAHUC saga which is being unravelled in the wake of the Saudi regime having ditched it.

The issue is not merely the haraam so-called "non-refundable registration fee" which is a paltry sum of R300 and R400. The primary issue of concern currently is the R48 million assets SAHUC is sitting on like a hen sitting on an egg. SAHUC has to start cackling about this egg.

SAHUC has to explain how it had managed to accumulate such a huge amount of assets? Surely the R48 million did not come from the pockets of the SAHUC team.

All the hujjaaj who had contributed funds to SAHUC have a direct interest in the R48 million assets. SAHUC has to explain. These Hujjaaj with whose money the assets have been acquired are all shareholders in the R48 million Pie which does not belong to the SAHUC team.
