THE RUBBISH SO-CALLED 'islamic' SCHOOLS INDOCTRINATING PURE KUFR

The Muslim community is silently complicit in the treason which these so-called 'islamic' schools are committing against Allah Ta'ala with their teaching of the gargantuan KUFR of Darwin's baboon theory of evolution. The children attending these schools are being indoctrinated with this pure unadulterated KUFR of the origin on *Insaan* from baboons which in turn originated from other phantoms according to the baboonic theory.

The proponents of this Kufr who are the school teachers while fully cognizant of this kufr, continue to impart the kufr to the children for safeguarding their haraam jobs. Their income is haraam. Their salary is the effect of teaching kufr. For the carrion crumbs of this dunya are the teachers and supporting molvis destroying their Imaan and ruining their Aakhirat with KUFR of the worst kind.

Allah Ta'ala explicitly states the origin on Insaan. Hadhrat Aadam (Alayhis salaam) and Hadhrat Hawwaa (Alayhas salaam), did not evolve from baboons as the illegitimate progeny of Iblees teaches in these satanic schools dubbed 'islamic'. The first two human beings were noble and perfect in every respect. They were perfect in appearance, body and intelligence. Hadhrat Aadam (Alayhis salaam) did not evolve from some phantom or any other creature. He came into existence spontaneously by the Command of Allah Azza Wa Jal. But this explicit declaration of Allah Ta'ala is overridden denied by implication by the KUFR of the baboon theory which the zindeeq teachers – males and females – are teaching Muslim children.

The following is a sample of the KUFR with which Muslim children are being indoctrinated by so-called Muslim teachers in so-called ‘islamic’ schools:

The Cambrian explosion

- ***The Cambrian period began 543 million years ago and ended 505 million years ago. It lasted for 38 million years.***
- ***In the first 5–20 million years of the Cambrian period, the major groups of animals appeared.***
 - ***These are classified as:***

Platyhelminthes (flatworms), Nematoda (worms), Annelida (segmented worms),

Mollusca (slugs, snails and creatures with shells), Arthropoda (invertebrates with external skeleton and joined limbs), Echinodermata (marine invertebrates) and Chordata (vertebrates – with skeleton).

- ***From the end of the Cambrian period into the Holocene epoch of the Quaternary period (in which we now live) the fossil record shows that different groups of animals evolved out of those primitive Cambrian forms in this order:***
 - ***fish: about 438 million years ago***
 - ***amphibians: about 380 million years ago***
 - ***reptiles: about 225 million years ago***
 - ***birds: about 180 million years ago***
 - ***mammals: about 150 million years ago***
 - ***humans: about 250 000 to 300 000 thousand years ago***

Pure KUFR fiction is being presented as the truth and reality. Nabi Aadam (Alayhis salaam) and Hadhrat Hawwaa (Alayhas salaam) are not the progeny of any stupid, fictitious phantoms called ‘flatworms’, slugs and baboons.

Every claim made in this Baboon Theory is fiction and baboonic. Humans did not evolve 300,000 years ago as this KUFR theory propounds. Man came to earth in his perfect state straight from Jannat. Worms and slugs and baboons were not the pro-genitors of *Inshaan*.

Understand well, that the one who believes in this baboonic kufr and those who teach it lose their Imaan even if they do not believe in the kufr filth. The teachers of this kufr and the molvis who slink into silence thereby proffering complicity and condonation are all equal in KUFR.

It is Haraam for parents to send their children to these schools of KUFR masquerading as ‘islamic’ schools.
