THE IMMORAL, OBSCENE ILLEGITMATE DAUGHTERS OF IBLEES

A Sister from the U.K. writes:

"I thought that these crazy immoral women were only in South Africa. We have the same type of sexual perverts in the U.K. as well. One such evil woman states that she tackles intimacy (explicit zina) in front of male audiences.

This so-called 'aalimah' advertises most shamelessly every aspect of the female's anatomy and advises the 'best' methods of gaining sensual pleasure. Her shaitaani courses include vulva anatomy, female orgasm, sensual meditation (that is meditating on sex), and just every obscenity attached to sex."

(Extract from the Sister's letter)

Yes, this type of woman is an 'aalimah' – an aalimah of zina and of sexual perversion. Their brains are absolutely rotten with obscenity and immorality of the worst kind. The stench of sexual perversion percolates from every aperture of their bodies. Understand well that only women of illegitimate birth are able to descend into the sewerage gutter to wallow in their filth of obscenity and immorality. Only a woman who is literally illegitimate has the necessary degree of absolute shamelessness to be able to acquit herself with rubbish immorality and obscenity to even male audiences.

The issue of halaal and haraam is of no concern whatsoever to such illegitimate daughters of Iblees. These sexually perverted women whose brains are vermiculated with the RIJS of Iblees are NEVER Muslim. Only such women constitute the audiences of these rubbishes who are themselves of the progeny of Iblees.

Their propagation of sexual perversion and obscenity is worse – far worse – than the sexual perversion taught in kuffaar educational institutions. Their entire being is diffused with the ***La'nat*** of Allah Ta'ala and His Malaaikah. They will perish horribly for the filth they are promoting in the name of Islam. Hitherto, even the kuffaar sexual perverts have not ventured into such immoral satanism as these rubbish illegitimate daughters of Iblees are perpetrating under cover of Islam. They were simply born to be fuel for Hell-Fire. After all, Allah Azza Wa Jal has taken an Oath that He *"will fill Jahannam with mankind and jinnkind"*. Thus there is an imperative need for the existence of Filth of this kind to feed Jahannam.
