FEBRUARY 9, 2021

Corona News Roundup: What You Need to Know. Really.

International Business Times: “Nurses, no guinea pigs! 87,000 healthcare workers in Netherlands refuse Covid-19 vaccine:

“Amid random reports of reactions to vaccine surfacing at different parts of the world, here comes a sharp refusal from thousands of healthcare workers. Around 87,000 nurses refused ‘experimental’ Covid-19 vaccine in the Netherlands, even as the Prime Minister Mark Rutte announced a strict five-week lockdown.

At a recent hearing of the Covid-19 Extra pulmonary Inquiry committee, Dr. Elke De Klerk from the Netherlands said she supports 87,000 nurses who resolved to refuse the Covid-19 vaccine because they don’t want to be a guinea pig. “We are also starting a lawsuit to bring a really large group of doctors and a really large group of nurses because we have contact with 87,000 nurses that do want the vaccine that is being prepared for us. They are not willing to be the guinea pigs.”
