27 Sha'baan 1444 – 20 March 2023

THE SAGA OF THE ALLEGED MURDER OF A MUREEDAH BY A BOGUS, CRANK KHALIFAH

This is another chapter in the satanism of Umar Arif, the khalifah of Molvi Fazlur Rahman Azmi. We reproduce here the letter of the murdered mureedah's Brother:

“Just to update you, that after we exhumed out sisters body we sent the samples abroad to 2 different labs. 1 was checking for medicinal substances and the other for antifreeze. We now have an update from the first lab while we wait for the update from the second lab.

The update is as follows.

Assalaamalaikum

Update from first laboratory

Unprescribed dangerous medications found in our sister's body

We all are aware that our sister, Luthfunnisa Khandwalla Admani was murdered in Mombasa Kenya whilst in the care of Farzana Khandwalla. In our efforts to take this matter to court her body was exhumed in October 2022 and samples were sent to 2 separate laboratories overseas. One for pharmaceutical drugs and the other for Anti-freeze

Alhamdulillah, we have received an update from the pharmaceutical drug laboratory, and it shows that the drug Diazepam was found.

This drug is used for several reasons, including sedation. It is not a drug you can just purchase over the counter and administered without being a doctor. Too much at one time can cause serious health problems including death.

This was not the cause of her death as we already know, but the presence of the drug being detected after so long begs questions. This drug can cause hallucinations, dizziness, muscle weakness, slow breathing and also make a person dillusional, which our sister was experiencing.

The second drug is ethambutol, and this is used to treat TB. Our sister did not have TB, so the questions arise:

1. Which doctor prescribed these drugs to her?
2. For what reason was she given these medication?
3. Who was administering these drugs?
4. How come her husband or no immediate family members knew anything about this as nothing was mentioned before or after her death?

Whilst we wait for the antifreeze results, we want an explanation.

Farzana, Hannah, Tahir, Thabit & Abu. **DO NOT REMAIN SILENT.**

Till now, all of these people have been silent regarding the events that occurred in the last days of our sister's life, and even with so much information surfacing, some of them claimed it was all lies and fabrication.

We even came know that she was given something powdered before given the antifreeze. How much more are they going to hide.

Now we demand answers. These people are the ones who, in her last few days, hid the reality of her state from us all whilst she was in their care.

These are valid questions, and We, the family and the community, have a right to know.

Walaikum salaam Imran Admani
(End of letter)

We shall comment later, Insha-Allah.
