THE 12 MILLION RAND RIDDLE! THE MJC AND NNB MUNAFIQUEEN MUST ANSWER

The Covid Solidarity Fund had issued the following statement:

SOLIDARITY FUND MANDATE

COVID-19 has changed the way that the world operates, and South Africa is no exception. The Solidarity Fund's mandate is to provide accurate and universal COVID-19 information through awareness campaigns, with the aim of improving the public's understanding of the pandemic and its implications. These campaigns help address misinformation and misunderstanding about the virus, and help to change behaviours to protect not only the individual but the country as a whole.

This is no small objective, and for the Fund to succeed, it was imperative to engage with community partners, who are optimally placed within the public sector. These partnerships enable the Fund to extend its reach and engage with as many South Africans as possible in the fight to eradicate COVID-19. The Fund partnered with three community partners to implement these campaigns in the communities they serve. As well as implementing their individual projects, they were also required to collaborate with each other in both content creation and distribution, and social mobilisation.

PARTNERS

The Fund contracted the Community Constituency Front (CCF), Covid Comms, and South African Council of Churches (SACC) as its community partners. These organisations are represented in the National Communication Partnership (NCP) that is directed by the Government Communication and Information System (GCIS). The Fund had already supported the NCP to implement a range of community level COVID-19 vaccine communications campaigns. Due to the success of these campaigns, the Fund extended funding to the partners to the value of R12m for each of the partners. This report discusses the campaign activities and impact from this additional funding.

(End of statement)

A salient issue is:

“The Fund extended funding to the partners to the value of R12m for each of the partners.”

It is an established fact that the two bootlickers in the Muslim community, namely MJC and NNB (so-called Jusa) who are partners in the kufr Interfaith religion were also partners in the Covid exercise and program.

While the NNB has denied receiving R12 million for its covid promotion, the MJC has hitherto been silent. If the NNB has not received a cent from the Covid Fund, it should allay suspicion and terminate the rumours which are justifiably being circulated in view of the statement of the Covid Solidarity Fund. How much did the MJC receive? How much did NNB receive?

The NNB gang issued the following deceptive statement:

The Jamiatul Ulama South Africa (JUSA) would like to inform the public that the allegation that the organisation received funds from the Solidarity Fund to the tune of R12 million is false.”

If not to the “tune of R12 million”, then to what tune? How much did it receive?
